# BOABOX™

WATER & SEWER

---

BOABOX 125  
BOABOX 150

## BOABOX™ WATER

The patented BoaBox™ Water Access Point provides efficient access to both the curb stop and the tracer wire system, all in one unit. The dual compartment and integrated entry points eliminate the need for two lids in a yard or right-of-way.

*BoaBox 125 fits 1" and 1-¼"  
curb box standpipe  
BoaBox 150 fits 1-½" curb box  
standpipe*

### FEATURES & BENEFITS

- Two access points in one -- curb stop and tracer wire system
- Bottom flange adds strength and anchors into ground to accommodate soil shifting
- Two sizes fit 1", 1-¼", and 1-½" IPS standpipes
- Brass hardware - no rusting or seizing parts
- Anti-corrosion gel protects wires
- Direct connection to tracer wire and ground rod from the top
- Encapsulated magnet in pentagon plug allows for detection by a ferrous metal detector
- ¼-turn pentagon style plug – NO cross-threading
- UV resistant, composite material

100% Made in the USA

BOABOX SWR

## BOABOX™ SEWER

The patented BoaBox™ Sewer Access Point is an integrated cleanout and tracer wire box for the sewer market. Provides efficient 4" cleanout access and tracer wire system access in one unit. The dual compartment and integrated entry points eliminate the need for two lids in a yard or right-of-way. One unit rather than two saves time and money in installation.

*BoaBox SWR fits 4" SCH40 and SDR35/26 PVC pipe with sleeve (provided)*

### FEATURES & BENEFITS

- Two access points in one -- cleanout and tracer wire system
- Bottom flange adds strength and anchors into ground to accommodate soil shifting
- Fits SCH40 IPS and SDR35/26 with provided sleeve
- Brass hardware - no rusting or seizing parts
- Anti-corrosion gel protects wires
- Direct connection to tracer wire and ground rod from the top
- Encapsulated magnet in pentagon plug allows for detection by a ferrous metal detector
- Industry first ¼-turn pentagon style plug – NO cross-threading
- UV resistant, composite material
