

## APPLICATION

Above-ground access point for tracer wire systems. Available with up to three terminals. Two- and three-terminal options provide a ground rod wire connection in addition to the tracer wire connection(s). Disconnect/reconnect jumper to turn ground on and off as needed. Multiple mounting options available.

Also available in white and black

- T1-\* – Cobra Single-terminal*
- T2-\* – Cobra Two-terminal with jumper*
- T3-\* – Cobra Three-terminal with jumper*
