

MAMBA ROUND LOCATE

MARKER POST + ACCESS POINT

APPLICATION

Rounded HDPE marker post with tracer wire access point built in. Provides high visibility to buried utilities and access to a tracer wire system. Can locate to or from the marker post with ability to connect/disconnect ground from the built-in access point. High-grade pigment and UV stabilizing agents provide maximum protection against fading. Alerts excavators to buried pipes/cables and can be customized with utility brand, 811 logo, and Call Before You Dig logo.

BUILT-IN TRACER WIRE ACCESS POINT

for 2-way tracer wire locating

CUSTOMIZABLE GRAPHICS
